3 Reels THE LIVINGSTON CASE
A detective story much on the order of the famous "Sherlock Holmes" creation,
is depicted on this film. Highly dramatic from the start, the plot is well sustained
and works out to a startling climax. An extraordinary film.
SERVANT FROM THE COUNTRY
A fine comedy illustrating the troubles experienced in hiring a maid-servant from
the country
SETTLED OUT OF COURT
A beautiful drama, intensely interesting
THE ROMANCE OF A TRAINED NURSE
Another of the Kalem Company's new series of beautiful pictures of life in the

TOWN AMATEURS SCORE BIG HIT

"The Toastmaster" Produced in
Walter's Theatre on Thursday Even-
ing before Large Audience is Vot-
ed Best in Many Years

"The best home talent show given
in Gettysburg in many years" was
the unanimous verdict of the five hun-
dred people who witnessed the produc-
tion of "The Toastmaster" in Walter's
Theatre Thursday night by Mr. Jay
Wellington supported by a large num-
ber of the young people of town and
college.

The play was suited exactly to the
taste of the Gettysburg audience and
their hearty approval was manifested
during the evening by frequent and
vigorous applause. A bright college
comedy with an abundance of humor-
ous situations, "The Toastmaster" took
the audience by storm and the half
thousand people present were not
at all slow to show their appreciation
of the work of the cast and chorus.

The stage settings were well arrang-
ed and the individual work of every
one in the cast was worthy of special
mention.

Mr. Wellington in the role of Bill
Morgan sustained his enviable repu-
tation here. His work throughout was
of the highest order and in his part
of the "maid" had the audience right
with him.

Too much cannot be said of the
work of Miss Frances McClean as Mrs.
Reed and Miss Louise Stahle as Cy-
nthia. Miss McClean had the diffi-
cult task of taking the part of a deaf
and dumb eccentric wife of a college
professor and her interpretation of the
part was all that could be desired.
Miss Louise Stahle was good as usual
and her work too was fully as good as
in the other plays in which she has
appeared.

H. F. Humphries, as George McIn-
tosh, and Durbin Ott as professor Reed
had two very diverse parts but filled
them admirably. Jay L. Harman as
"The Toastmaster" was most accept-
able while Clarence F. Stifel, H. H.
Mercer and Edward Sincell, as the
other college boys were all up to the
high standard set by the other mem-
bers of the cast. Master Roy Hart-
dagen scored a decided hit.

The musical numbers on the pro-
gram completely captured the house.
The audience could not be satisfied
and had, the young people been so
minded, they could have been kept re-
sponding to encores for an hour or
more. The "chorus girls" were
most attractive and their graceful
"steps" brought the audience to its
highest pitch of enthusiasm. The
numbers in the musical part of the
play were all first rate and proved to
be among the many big features of the
evening.

Mr. Humphries with five of the
chorus sang "He's a College Boy,"
Miss Rachael Skelly sang "I Re-
member You," ten of the chorus com-
ing in on the refrain; and the other
numbers were "The Stein Song," by
Miss Ruth Clutz; "If You'll Remem-
ber Me," Frank Carroll; "Love's
Young Dream," Mrs. Roy E. Zinn;
"Good Fellows," Mr. Wellington.

In addition to the members of the
cast the chorus was composed of the
following, Miss Elizabeth Cox, Miss
Elizabeth Van Cleve, Miss Martha
Dickson, Miss Margaret Valentine,
Miss Louise Stahle, Miss Mary Slay-
baugh, Miss Bernadette Thomas, Miss
Blanche Klingner, Miss Helen Kendle-
hart, Miss Ruth Clutz, Miss Rachael
Skelly, Messrs. Frank Carroll, Mark
Brenner and Floyd Bream.

Mrs. Bessie Timmins was the accom-
panist for the play and the work of
the orchestra added a great deal to the
evening's entertainment.

The Citizens' Band will receive
about \$80.00 from the proceeds of the
play.

GOOD SALE

The sale of J. Kerr and David Lott
on Thursday was attended by a large
crowd of people. Everything sold
well, the cattle bringing especially
good prices. The highest cow brought
\$69.50 and 22 milk cows averaged
\$51.50. The total amount of the sale
was \$2828. Thompson was the auction-
eer.

MUCH SICKNESS IN THE COUNTY

Whooping Cough, Pink Eye, Mumps,
Pneumonia and Grip Cause Much
Discomfort. Physicians very
Busy.

The mumps and pink eye victims
who have been suffering in town for
some time past may now have the con-
solation that there are many others
afflicted with the same uncomfortable
ailments.

From some sections of the county
large numbers of cases of these two dis-
eases are reported, while whooping
cough seems to be causing considerable
trouble. On route 12 Gettysburg there
are six families in which some one is
sick with either whooping cough or
mumps. Pink eye has caused no little
inconvenience to some of the county
schools this winter.

Diphtheria made its appearance at a
number of places but action was so
prompt that no serious epidemic fol-
lowed. One or two schools were closed
for short periods by the prevalence
of this disease and were kept closed
until all danger was judged to be past.
Some scarlet fever has been reported
but there are very few cases.

County doctors tell of an unusual
number of cases of pneumonia and
grip. Weather conditions seem to be
prime for epidemics of these winter
ailments and the doctors are kept busy
treating patients suffering from them.
Physicians have had busy times dur-
ing the past few months and with the
continuance of the great amount of
illness they are still driven to the
limit.

TO SPEND MILLION

More than \$1,000,000 is to be expen-
ded by the Western Maryland Railroad
Company for new equipment to take
care of the system's rapidly increasing
business.

It is understood that tentative or-
ders for 900 gondola cars of 100,000
pounds capacity each already have
been placed and these will be follow-
ed by orders for eight additional loco-
motives. Five hundred of the cars
will be of steel under frame and will
be built by the Standard Steel Car
Company. Four hundred will be of
the all steel type, and will be con-
structed by the Cambria Steel Com-
pany of Pennsylvania.

Of the engines, two will be of the
Mallet type for heavy hauling over the
mountains. They will cost upward
of \$27,000 each. Six engines will be
of the consolidated type, and will cost
about \$18,000 each.

SURPRISE PARTY

A very pleasant surprise party was
held March 1, at the home of Mr. and
Mrs. James M. Boyd, on route 1, Orr-
tanna, in honor of Mr. Boyd's birth-
day. Those present were: Mr. and
Mrs. James M. Boyd, Mr. and Mrs.
Barney Walker, Mr. and Mrs. Curtis
Biesecker, Mr. and Mrs. Edward
Shultz, Mr. and Mrs. William Krou-
shower, Mr. and Mrs. H. C. Hauger,
Mr. and Mrs. Curtis McGlaughlin, Mr.
and Mrs. Millard Stoner, Mr. and
Mrs. Clement Wolford, Mr. Frank
Herbert and Mr. William Baker, of
Emmitsburg; Misses Florence Beard,
Nellie Boyd, Edna Kroushower, Helen
McGlaughlin, May Boyd, Mary Herbst,
Annie Hammers, Nannie McGlaugh-
lin Ruth Boyd, Dora Wolford, Messrs.
James McGlaughlin, Ross Boyd,
Wayne Shultz, William Kroushower,
Dorsey Sowers, Robert Boyd, Earl Bie-
secker, and Orlo Shultz.

LOST POCKET BOOK

O. D. Gruver, who resides on R. D.
route No. 1, East Berlin, was in York,
Wednesday with his wife, on
business, and had with him a pocket-
book containing \$675. They left York
on the car which left for Dover at 4 p.
m., and when they reached Dover Mr.
Gruver found that his pocketbook and
money were missing. In the purse
were also two tax receipts containing
his name. Mr. Gruver is sure that
he had the pocketbook at 3 o'clock.
After that time he did not look for
it until he reached Dover.

PUBLIC BUILDINGS

Work on Chambersburg's new fed-
eral building is expected to start be-
fore July 1. A bill has been introduced
providing for an appropriation of
\$30,000 for a site for a similar struc-
ture in Waynesboro.

BIGLERVILLE HAS BUSY TIME

Biglerville Development Company
Preparing to Erect Eight New
Residences in Town. Shirt Fac-
tory Prospering.

Biglerville is preparing for its an-
nual busy Spring boom season and the
place will have its usual activities
during the next few months.

One of the most notable improve-
ments to the town will be the erection
of eight new houses on South Main
street. They will be put up by the
Biglerville Development Company and
will be located in the lines of the re-
cent addition to the borough. The
houses will be modern in every parti-
cular and will all be of the same gen-
eral style of architecture.

The new shirt factory, started with
in the past few weeks by Charles C.
Trostle, is moving along nicely and is
a busy place. There are about twenty
people employed and the plant gives
promise of being a valuable addition
to the town.

The Musselman Canning Company
is furnishing the seed corn for the
planting for Spring canning. Ship-
ments of canned apples are also taking
considerable time and labor as the
company has a large quantity reserved
for shipments to the cities. The cans
are all labeled and packed before ship-
ment is made.

The upper end town is enjoying its
customary prosperity and is going
straight ahead at its usual progressive
speed.

Gettysburg.

The sales in this section are still
well attended and stock sells very
high.

KEEPS HENS BUSY

Charles Hutz, head cook at the
White Pine Sanitarium, at Mt. Alto,
says it takes some planning to keep the
appetites of the patients appeased. For
instance, Saturday morning he had
98 dozen eggs soft boiled for breakfast.
For dinner he had 50 pounds of fish
prepared.

Besides the soft boiled eggs each
patient had raw eggs and milk four
times during the day not mentioning
the three regular meals.

MRS. ADAM MINTER

Mrs. Adam Minter died at her home
in McKnightstown at five o'clock
Thursday evening after an illness of
several months.

Surviving her are two daughters,
Mrs. N. H. Musselman, of Gettysburg;
and Miss Elizabeth Minter at home;
and two sons, George Minter, of
Arendtsville and Jacob Minter, living
above Flohr's church. Her husband
died several years ago.

Funeral Monday morning.

START PRACTICE

The College base ball team has
started practice for the Spring season.
In addition to the outdoor work on
the Prep campus the coach is giving
talks to the squad. Prospects are very
good for a winning team this year.

He Knew the Ropes.

During a special service in a Phila-
delphia church a few days ago the offi-
ciating clergyman engaged in exhort-
ing those wishing to confess conversion to
proceed to the altar when a stranger
arose from his seat and slowly walked
to the altar railing. The visitor in-
formed the minister that he had decid-
ed to abandon his present mode of
living and turn over a new leaf.

"Brother," said the clergyman, "do
you think you can walk the straight
and narrow path?"

"Straight and narrow path?" ex-
claimed the stranger. "Why, parson,
that will be a cinch for me. I've been
a tight rope walker for fifteen years."

GETTYSBURG 46 BUCKNELL 17

Old Rivals Beaten by Decisive Score
in one of the Fastest Games of
Basket Ball ever Played in Get-
tysburg.

All old basket ball scores between
Bucknell and Gettysburg were effective-
ly wiped out in the college gymnas-
ium on Thursday evening when the
locals simply ran away with the vis-
itors, completely outclassing them in
every point of the game and having a
lead of almost thirty points over them
at the end of the first half. The final
score was 46 to 17.

The game was decidedly the fastest
seen in the college gymnasium this
year and it is doubtful if faster play-
ing than that of the first half has
ever been witnessed here. Bucknell
was not in the game at all and manag-
ed to get only one goal from play dur-
ing the first period. Fast and accurate
passing, followed by good shooting,
ran the Gettysburg side of the total
up until over thirty points were regis-
tered in the first twenty minutes of
play.

The team work was above par
throughout and while Bucknell ran
about the floor in a vain endeavor to
stop the phenomenal work of the home
team the score mounted steadily up.
Coupled with Gettysburg's goal get-
ting capacity was the close guarding
of the visitors. A large portion of
Bucknell's points were secured on
goals from fouls. Referee Barnes show-
ing his usual coolness and impartiality
in discerning offenses.

Between the halves there was an in-
teresting exhibition of pole vaulting.

The season just closed was one of
the best the college has ever had.
Every game played on the home floor
was won and all foreign games were
lost by creditable scores, in every in-
stance Gettysburg faring better on
their opponents' floor than did their
opponents here.

WENKSVILLE

BREAM-COVER

Mr. Ellis Bream and Miss Bessie
Cover were married at the home of the
bride's parents, Mr. and Mrs. Millard
Cover, Orrtanna, on Wednesday, March
2. Rev. E. W. Stonebraker performed
the ceremony which took place at
noon.

Herbert Cover and Miss Lynn, of
Orrtanna, were the attendants. The
decorations consisted of evergreens,
cut and potted flowers, white and green
coil rope tissue, with a huge bell, un-
der which the wedding party stood
during the ceremony.

The bride received many useful and
beautiful presents. After an elegant
dinner Mr. and Mrs. Bream took the
train for a week's visit in Harrisburg
and elsewhere.

Their many friends wish them a
happy trip over the sea of life.

TWO PRINCES WANT AMERICAN BRIDES

Alexander of Serbia and His Brother Heir Hunting.

Washington, March 4. — A crown prince and an elder brother, who renounced his succession to the throne, are coming to visit the United States this summer to search for heiresses to wed. If the younger of them is successful, then an American girl may some day be queen.

True it is not much of a throne, and the two princes have very little to recommend them in the way of antecedents or manners, for they are the Crown Prince Alexander, of Serbia, and his scapegrace brother, the former Crown Prince George. The sole reason for their visit is that they need the money, and hope to marry for the greatest wealth they can win, as the royal families of Europe long ago refused to contract marriages with the reigning house of Serbia. This leaves its princes and princesses to choose their mates where they please or can, and in the case of the former their choices have not always been of the best.

Reports of the fabulous wealth of American girls, and their proneness to barter their fortunes for a title, have inspired the two brothers, wild and boorish as they are, with the belief that a couple of months' visit to this country will enable them each to gain dots sufficient to carry them through many a debauch in Paris or other capitals of Europe, where they prefer to spend their time instead of among their own people.

Prince George is known as the "Hooligan" of the reigning families of Europe. His escapades have given the impression that he is mad. He is accused of having murdered a valet and of many other offenses even less wholesome. The manners of Prince Alexander can be imagined when his partners in the dance suddenly quit his side and claim that his insults are unbearable even from a crown prince. George's escapades became so notorious that he was compelled to renounce his succession to the throne.

MOR STORMS COURT

Throw Prisoner From Window and Then Hang Him.

Dallas, Tex., March 4.—Allen Brooks, colored, charged with assaulting a three-year-old girl last week, was lynched here by a mob of 5000 men.

A number of colored men participated in the lynching of Brooks. He was in the court room awaiting trial, when the mob surged past the officers on guard and threw the colored man from the second-story window, breaking his neck. A rope was then slipped over the dead man's head and he was dragged down Main street to the Elks' arch, a distance of ten blocks, where the body was strung up. The police prevented the body from being burned. When the attack was made the militia and extra police were ordered out, but before they could reach the scene the mob had secured possession of the colored man.

REBELS ARE BADLY BEATEN

Nicaragua Insurrection is Virtually Ended.

MAY FIGHT IN THE BUSH

Revolutionists Lost 800 Men Killed, Wounded and Captured—Hope to Force the United States to Intervene.

Bluefields, Nicaragua, March 4. — General Estrada's insurrection against the Nicaraguan government has been practically crushed. The only thing left to the provisionals is to resort to guerrilla warfare.

For the first time the correspondents and the more prominent personages of this city were told the true situation, which, however, had been suspected for a week. It is now admitted that General Chamorro's campaign was a failure. He had hoped that the interior would welcome and reinforce the insurgent arms. This was possible up to the time that President Zelaya resigned. His resignation and the election of President Madriz appears to have satisfied the people of the interior and west generally, and when General Estrada's armies reached the heart of the country they were given a lukewarm reception and little or no aid.

General Chamorro Whipped.

The destructive blow fell at Tisma on Feb. 22, when General Chamorro was whipped. In killed, wounded and captured the insurgent general lost 800 men. Chamorro himself barely escaped, and with 100 or 200 men fled to San Vicente, where General Mena was entrenched. Godfrey Fowler, the American who was in charge of the insurgent artillery under General Chamorro, was wounded in the leg and left at a plantation near Tisma.

General Chamorro is said to have reached San Vicente Sunday and to have wired his report. He estimates the enemy's loss at 1000 men, and explains his defeat by the exhaustion of his cartridge supply.

Few Insurgents in Field.

With the remnant of Chamorro's force there are now at San Vicente 800 provisional soldiers. Fifteen Americans recruited at Panama started for the front, and an effort is being made to gather 500 additional recruits among the Nicaraguans of this city.

As a military menace, however, the provisional army now appears to merit no higher classification than that of a guerrilla band. The present plans are for the prosecution of this style of bush warfare, presumably with the idea of compelling the United States to intervene.

Chamorro's defeat leaves only General Mena's comparatively small force interposed between the enemy's 1000 and the east coast. Some of the provisional leaders profess to believe that with Mena's soldiers and such of the depleted insurgent force as could be rallied from the frontier for the defense of a new republic they would stand some chance of success, and that there is a possibility that the United States would recognize the new government.

BULLDOG KILLS BULL

Fought For an Hour Before Dog Got His Grip.

Cheyenne, Wyo., March 4.—A death struggle occurred between a bull and a bulldog here. The dog enraged the bovine by snapping at its head and, when the bull charged, the dog immediately began to fight. The contest lasted for more than an hour, the dog skillfully eluding the maddened bull's rushes until the canine found an opening and got a grip on the bull's neck. The bull finally collapsed with a gaping wound and died from the injuries. The combat was so furious that it drove A. B. Hawkins, owner and referee, into the house.

MULE KILLS BEAR

Kicks Bruin on Foraging Tour to Death in Barn.

Huntingdon, Pa., March 4.—Daniel Shawley, a West township farmer, hearing a commotion among his stock, arose from his bed and on going to the barn found a 226-pound black bear being beaten to death by his mule Maud. The bear was lying on his side feebly defending himself from the deadly blows from the donkey's four feet and died in a few minutes.

Bruin had entered the barn with the evident intention of foraging for chickens, large numbers of which had lately disappeared from premises of farmers in this vicinity.

Will on Small Cardboard.

Reading, Pa., March 4.—The will of P. Frank Hawman, disposing of an estate of \$10,000, of which \$7000 represents life insurance, is unique, being written upon a piece of pasteboard two inches by one and a half inches in dimensions. It contains these words: "All I possess, real and personal, belongs to my wife absolutely at my death."

MUNYON.

GROW YOUNG instead of old is not a theory with me; it is a fact that I have proven in my own case, as can be attested by the thousands of people who know me. I am practically twenty years younger today than I was a year ago. I mean by this that I look younger, feel younger, and am enabled to do more work and better work than ever before. Every day I am asked by my friends what remedies I take to renew my youth. So general has this inquiry become that I here offer the formula to the public.

First, I have divested myself of all selfish ambitions. I have driven from my heart all enmity, all selfishness, all hatred, all envies, and in their place, I have housed sympathy, charity, hope, forgiveness.

Second, I have ceased to put into my stomach food that irritates and taxes my energies or drink that excites and burns up my vitality.

Third, I have discovered that nearly all ailments are due to an irritated or clogged condition of the bowels; that the bowels are simply incubators of microbes; that the bowels, being a sewer pipe for the human system, should be kept clean, clear and sanitary; that it is inconsistent with science and the intelligence of the Twentieth Century for one to carry around for several hours, titles of decomposed matter, which is giving off poisonous gases and irritating all the nerves.

I discovered that after the stomach and intestines had been extracted all the nourishment from the food they had received, this waste matter should be gotten rid of at the earliest possible moment; like aches or clinkers in a furnace, they should be removed. Some of the most learned scientists agree with me that nearly all ailments are traceable to the bowels. Dr. Knickerhoff, in a forcible article, states that old age is but another name for self-poisoning from absorption of fecal product from the colon.

Burgess, the noted founder of the Active Principle Method, is strongly of the opinion that life can be prolonged by keeping the alimentary canal clean and sanitary.

Working on this thought, I have had my chemist produce Munyon's Paw Paw Laxative Pills, which not only act as a digestive and liver purgative, but have the action of flushing the bowels, not as a purgative, but as an antiseptic cleanser. I can assure that it is impossible for a person to have indigestion, dyspepsia, to be bilious or have any liver ailment, who will take a Paw Paw Pill every night. They enable the stomach to get all the nutriment from the food that is put into it, thus keeping the nerves and tissues of the body fed with the vital elements essential to life. I do not believe there is a better blood purifier than Munyon's Paw Paw Pills. They soon clear the complexion of sallowness, pimples and skin eruptions, and give the cheeks a youthful glow. In fact, they brighten the eye and give a vigorous force to the whole body.

In order that every one may use these pills, I have put them in two sizes, a trial size of ten pills for 10 cents, and a full size of fifty pills for 25 cents.

I most urgently ask every person who suffers from any form of indigestion, bilious or liver ailment, especially those who are troubled with constipation, to give these pills a trial. They contain no calomel, no dope. They are soothing, healing and stimulating, and school the bowels to act without physic.

Powerful Machine Failed to Rescue Snow-Bound Passengers.

100 DEAD IN BURIED TRAINS

Survivors of Avalanche Tell Awful Tales of Suffering.

Wellington, Wash., March 4. — Twenty-eight bodies of the avalanche-buried train victims in the mountains have been recovered. Sixty persons are missing, whose names are unknown, besides a number of laborers. It was estimated that probably more than 100 persons are killed. All in the ruins are dead.

The survivors now arriving from the scene of torture and death tell awful tales. Passenger-filled coaches were carried 200 and 300 and in some instances 1000 feet down the mountain side into yawning gorges and buried under hundreds of tons of snow and debris.

Not a ray of hope remains of rescuing alive a single one of the many imprisoned in the cars now buried so deep. Thirty bodies, nearly all mutilated beyond possible identification, are lying on the snow covered mountain side. Some are covered with blankets, while others are bared to the blasts of the storm-charged heavens.

SUSQUEHANNA FLOOD IS NOW RECEDING

A Number of Buildings Were Washed Away.

Wilkes-Barre, Pa., March 4. — The river is slowly receding and it is believed the worst is over. The water is falling about one inch an hour. The river is free of heavy ice between this city and Binghamton, and reports from Tunkhannock, Towanda and other towns state that all danger of further damage is past.

A number of barns and outbuildings in the track of the flood were unable to withstand the strain and were carried down stream.

The ice from the gorges in New York state passed down the rapidly moving stream. The great volume of water running in the river now is from the creeks and other small tributaries of the river, as in indicated by small ice and debris.

Many families in the lower end of the city became alarmed at the rise of the water Thursday and vacated their homes. Residents of Plymouth living in low ground also moved out of their dwellings.

Owing to the wide area of the river at the present time the rise was slow. When the ice passed out the water began to fall.

Asks Taft to Find Bad Penny.

The letter was referred to the treasury department.

Free Liver Remedy

It is well to stop a physical ailment at the first signs of its approach, and that is especially true of liver trouble, which can eventually give rise to so many serious complications. Many have liver trouble and imagine it is indigestion, and hence take the wrong remedy.

When the liver does not store up sufficient gastric juices it becomes sluggish, and in this way disturbs the stomach and bowels, with which it is supposed to work in harmony. Then comes the dull complexion, the pinkey face, the dull pain in the forehead, the thinning of the blood, etc. A very quick and sensible way to stop the trouble as well as to cure it is by the use of Dr. Caldwell's Syrup Pepsin, which contains ingredients especially intended to promote the activity of the liver.

Among the many thousands who have written the doctor about the results achieved with his remedy, and who are glad to make the facts public so that others can help themselves, are Mr. Jas. Kennedy, St. Louis, Mo.; Mrs. S. A. La Rue of Smith's Grove, Ky., and many others.

These, like thousands of others, started to use of Syrup Pepsin with a sample. If you will send your name and address you can also obtain a free trial bottle. This will prove to you that liver trouble is promptly cured with this remedy or money will be refunded. Having tried it you can then buy it in the regular way of your druggist at fifty cents and one dollar a bottle, and the latter is sufficient for an entire family.

This remedy is a vast improvement over cathartic tablets and salts, which only do good for the time being. Syrup Pepsin is permanent in its results, is pleasant to take and does not gripe. It is especially good for all those who cannot stand a violent purgative.

Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver or bowels absolutely free of charge. Explain your case in a letter and he will reply to you in detail. For the free sample simply send your name and address on a postal card or otherwise. For either request the doctor's address is Dr. W. B. Caldwell, R. 521 Caldwell building, Monticello, Ill.

GENERAL STRIKE SEEMS CERTAIN

Philadelphia Councilmen Keep Hands Off.

PREPARING FOR BIG FIGHT

Hundreds of Extra Policemen Sworn In and the National Guard Ready to Move on Quaker City When General Walkout Takes Place—Strike Leaders Indicted.

Philadelphia, March 4.—Thousands of people who expected select and common council to end the car strike and prevent a general strike were disappointed when those bodies took no action.

They took their orders from Reburn, the mayor, who has become the most uncompromising foe of arbitration. From his armchair the mayor sent a message to the two bodies, advising them to keep hands off, and the councilmen knuckled under and tabled two resolutions which threatened to make things uncomfortable for the Rapid Transit company and the city's two representatives upon its board of directors, George H. Earle and William H. Carpenter.

Mayor Reburn sent along with his message a copy of a musty old statute which even the lawyers had forgotten, an act which provides but does not compel, a way for the settlement of difficulties between employers and employees. The striking carmen snatched at the old law eagerly and asked the Rapid Transit company to go into court with them for the appointment of a board of arbitration, as provided by the law, but nobody believes for a moment that the company will consider for an instant any such proposition.

The Rapid Transit directors have folded their hands, set themselves down and announced that "the strike is over." Citizens generally have resigned themselves to the situation. A few more hours will tell how much trouble is to come. Certainly there are enough explosive elements in the air to blow up a number of old-fashioned institutions. The police force was further strengthened in numbers by 1000 men. The National Guard is waiting on tiptoes.

Crowds Besiege Councils.

There was every hope that the councilmen would shoot a set of resolutions toward the Rapid Transit directors, resolutions potent enough to give the company a chance to retire gracefully from a difficult position. In that expectation a large crowd gathered around the city hall. Hundreds tried to penetrate to the council chamber. They were shooed away by the police. Delegations of business men were fired as peremptorily as the merely curious. For hours there were grumblings and murmurings around the big building.

The few outsiders in the councils rooms realized immediately after the reading of the mayor's message that the councilmen intended to do nothing. After outlining the progress of the car strike, the Hon. John E. Reburn submitted these views:

"It is not the city's duty, nor yours or mine to interfere between the Philadelphia Rapid Transit company and its employees. The courts of law are available for the redress of any real grievance which either may have against the other. No reason exists nor can exist in proper cases why they and all other disputants should not submit their differences to the courts or adjust their disputes between themselves."

"It is of the utmost importance, however, for the good name of our city and for the safety of its citizens that no step should be taken by your honorable bodies or by any others which would undo or in any way or manner interfere with that which has already been done, or lead any person to think or believe that he can, by the aid of the machinery of the executive or legislative branches of the municipal government, enforce any demand not cognizable in the courts or voluntarily adjustable between the parties."

"Any attempt, however honest it may be, which tends to draw away from the parties themselves, or from the judiciary, the determination of disputes which, under the constitution and laws of the commonwealth are entrusted to them, necessarily weakens and impairs our form of government and tends to substitute other means not calm, considerate and unbiased for those which are now lawfully provided and are abundantly sufficient for that purpose, and in the present case would but delay the restoration of full service by the Transit company."

No official action was taken on the mayor's suggestion as to the law that provides a means of settlement. It is a statute which has excited a great deal of interest in this city, although none can see how anything will come of it. The striking carmen, anxious for any means out of their difficulties, at once seized upon it as a means, but they realized that without the immediate co-operation of the Rapid Transit company, the law would be worse than useless to them. Without both sides to a dispute going into court, the one side which does must wait ten days for the other party to make an answer. Ten days wait would kill a general strike.

Strike May Become Statewide. Another side to the general situation has become apparent. A general strike here is likely to have statewide, even national, consequences. The Central Labor union has heard from the centrals of Chicago and San Francisco. John Fitzpatrick, of the Chicago body, telegraphed that 250,000 men there are ready to strike in sympathy, while Andrew J. Gallagher, of the San Francisco organization, sent word that 175,000 men there stand ready to back up the labor unions here in any action they may take. Besides these, John Murphy says he has received assurances that there will be sympathetic strikes all over the state of Pennsylvania.

The city authorities are making what preparations they can to suppress lawlessness. In addition to adding 1000 men to the already increased force of policemen, Director Clay sent a letter to employers throughout the city asking them to co-operate with the police in keeping disorder down. The employers are asked to impress on their men, whether they strike or not, the importance of not gathering in or mingling with crowds and to refrain from interfering in any way with the authorities.

Clay requested the president of the Builders' Exchange to notify the members of that body to remove all building material from streets where building operations are now in progress.

The newspapers will not be embarrassed by the general strike. The committee of five appointed by the Typographical union held a meeting. The information is that the committee, in whose hands the action of the typos was left, decided against participating.

Director Clay, who has been making a canvass of the situation, says he has positive assurance that not one of the 11,000 employees of the Baldwin Locomotive works will go on strike. On the other hand the union leaders declare that more than half of the Baldwin people will quit. The director believes that the labor leaders' statement that 100,000 men will strike are away above the truth. He doesn't think that more than a third of the number will join in the walkout.

Pratt, leader of the striking carmen, and President Murphy, of the Central Labor union, were indicted by the grand jury for making incendiary statements and inciting to riot. Both are under heavy bail. The time for their trials has not been set.

Determined to Strike if Demands Are Refused.

B. & O. Trainmen Will Strike If Demands Are Refused.

Baltimore, March 4.—By an almost unanimous vote the trainmen of the Baltimore & Ohio railroad have sustained the action of their general committee in rejecting the counter proposition of the company.

President Willard's offer to submit the disputed questions to arbitration also was overwhelmingly rejected. After the meeting which the break in relations came the company made the following announcement: "The company, finding itself unable to come to an agreement with the trainmen, has asked for mediation of Chairman Knapp, of the Interstate commerce commission, and Labor Commissioner Neill."

In view of the heavy vote favoring resort to a strike "if necessary," it is regarded as reasonably certain that a strike will follow.

Ninety-eight per cent of the men of the two organizations involved, namely the Order of Railway Conductors and the Brotherhood of Railway Trainmen, voted to sustain the action of their general committee.

West of the Mississippi river freight conductors are paid \$3.50 per hundred miles and freight brakemen \$2.53 per hundred miles. There is no uniform scale for the passenger service as yet. The increase of 9 per cent requested of the Baltimore & Ohio was expected to set it.

In explanation of the refusal of the men to assent to President Willard's proposal to submit the differences to arbitration under the Erdman act, President Lee, of the Trainmen's Brotherhood, declared that railroad men generally view the law with disfavor because, he said, the decisions of the arbiters on disputed points affecting their interests have almost invariably been made against them.

EATEN BY WOLVES

Missouri Woodsman Loses Desperate Fight For Life.

Springfield, Mo., March 4. — James Smith, a woodsman, was eaten by wolves in the woods near Ally after fighting desperately for life.

Wolves had attacked him while he was alone, awaiting the return of a brother.

When the latter came he found his brother's bones in the center of a circle of five dead wolves, while an empty repeating rifle showed that he had been overpowered before he could reload it.

Sheep Bring Record Price.

Chicago, March 4.—Sheep sold at \$8.10 a hundred, the highest mark ever recorded in the history of the Chicago market. The animals, it was said, were purchased for the use of the British army in the Bermuda Islands.

ROCKEFELLER, JR., AS DISPENSER

Will Devote His Time to Father's Charitable Work.

QUITS OIL TRUST BOARD

Will Sever All Business Connections to Devote His Time to Immense Philanthropic Projects.

New York, March 4.—John D. Rockefeller, Jr., has resigned from the board of directors of the Standard Oil company. His retirement from the list of directors for the current year. Mr. Rockefeller's retirement from the board, together with the statement that he had resigned because he desired to devote more of his time to the philanthropic projects in which he and his father are interested, leads to the natural conclusion that the younger Rockefeller will devote his time to the supervision of the immense charitable project embodied in the Rockefeller Foundation, a bill for the incorporation of which was introduced in congress Wednesday.

Furthermore, John D. Rockefeller, Jr., has resigned from many other boards of late. It was said at the Standard Oil offices that young Mr. Rockefeller hadn't been as active in the management of the company as his position as director might seem to indicate.

Scope Practically Unlimited.

The new Rockefeller Foundation is at present but vaguely outlined. In Senator Gallinger's bill there is a paragraph stating the objects of the undertaking. "To promote well being and to advance the civilization of the peoples of the United States and its territories and possessions and of foreign lands, in the acquisition and dissemination of knowledge, in the prevention and relief of suffering and in the promotion of any and all of the elements of human progress." Thus reads the prospectus of an organization which, according to a statement made by Frederick T. Gates, is nothing new under the sun. Every other charitable institution has been organized, said he, for some specific object. The new scheme differs from all in that it is limited in its activities to no particular race, religion, time, place or method. It will be a reserve fund in time of calamity, and it can be used for any emergencies that may arise.

"What might have been a field for charity ten years ago," he continued, "is very possibly now, on account of changing conditions, a field in which labor and money would be wasted. There are today hundreds of organized charities which are not doing any practical good for this reason."

Starr J. Murphy said that it would be impossible to discuss the actual working out of this inclusive project until congress had taken action, nor could he say what would become of the bulk of Mr. Rockefeller's fortune. The General Education Board, which may in time be superseded by the Foundation, received \$53,000,000 from Mr. Rockefeller. He himself has said that his fortune cannot exceed \$300,000,000. The young man, who will in all probability have the management of the Foundation, is now thirty-three years of age. After graduating from Brown university he became engaged in business interests with his father as a director of the Standard Oil company, the Missouri Pacific railroad, the Colorado Fuel and Iron company and the Federal Mining and Smelting company and a member of the board of managers of the Delaware, Lackawanna & Western Railroad company.

In 1901 he was married to Miss Abby Greene Aldrich, daughter of Nelson W. Aldrich. John D. Rockefeller 3d was born in 1896.

IRISH SOD FOR TAFT

Will Stand on Earth From Emerald Isle on St. Patrick's Day.

Queensbury, N. Y., March 4.—The American liner St. Louis, bound from Southampton for New York, which sailed from here, carried a quantity of Irish sods and hundreds of packages of shamrocks for the Irish Fellowship club, of Chicago. It is before this club that President Taft is to speak on St. Patrick's day, and the sods are for a square on which he is to stand so that he may speak from Irish soil when he delivers his address on the feast day of Ireland's patron saint.

Express Money Package Lost.

Trenton, N. J., March 4.—The police have been asked by Harry Hughes, an express company driver, to find a package containing \$500, lost from his wagon. He was unable to tell in what part of the city the package was lost. Under the rules of the company, unless Hughes recovers the package he will be obliged to face a criminal charge.

Man Escapes Gallows.

Dover, Del., March 4. — The state board of pardons in session here, after hearing arguments in the case of Joseph Segerella, who was convicted of felonious assault on Mildred Poor, an eleven-year-old white girl, in Wilmington two years ago, granted him a pardon from that of death sentence to life imprisonment.

The Rule of Three.
A man who had been timidly thinking about matrimony for several years and who had finally goaded himself to the point of becoming engaged took his seat at his desk in a rather thoughtful mood the other morning. Finally he turned to the man at the next desk and said:
"I say, old man, can you tell me what is meant by the rule of three?"
My girl asked me about it last night. Never heard of it before."
"Well," said the man at the next desk, who was adorned with a frayed collar and an incipient bald spot on his head, "if you can wait till you're married and live with your wife, her ancient maiden sister and their mother you will know the rule of three all right."

The Dean's Grace.
A famous dean was once at dinner when, just as the cloth was removed, the subject of discourse happened to be that of extraordinary mortality among lawyers. "We have lost," said a gentleman, "not fewer than six eminent barristers in as many months." The dean, who was quite deaf, rose as his friend finished his remarks and gave the company grace. "For this and every other mercy make us truly thankful."

A Living Emetic.
A servant who did not find her way very promptly to the kitchen one morning was visited by her mistress, who found her in bed suffering from pain and violent sickness. She explained that she had a cold and had taken some medicine which had been recommended for the children.
"How much did you take?" asked her mistress.
"Well, mum, I went by the directions on the bottle. They said, 'Ten drops for an infant, thirty drops for an adult and a tablespoonful for an emetic.' I knew I wasn't an infant or adult, so I thought I must be an emetic, and the pesky stuff has pretty nigh turned me inside out."

A WONDER THAT HAS

PUZZLED MANY

There are many people that are greatly puzzled over the wonderful effects of Root Juice. When this new medicine was first introduced it was generally thought that a new fake was born to die in a short time. But as time passed and so many testimonials are pouring in from all over the country from people who had given up hope of ever seeing another well day, and neighbor is telling neighbor of some great good received from the use of Root Juice, many people are wondering why this great remedy was not discovered years ago. What a great boon to human kind is a remedy like Root Juice, a combination of nature's drugs that soothes and heals and tones the stomach, liver, kidneys and bowels. How sweet is health and how wonderful are the many cures that Root Juice has made of rheumatism, catarrh, indigestion, female weakness and other troubles of the digestive and secretory organs. Those who wish to learn of this great remedy should go to the People's drug store.

Age of Apple Trees.
A good four-year-old apple tree, if well grown and dug carefully, is a desirable tree for a town lot or the village garden, but is not to be recommended for orchard planting. It is too expensive, as the grower must have a big price for it to pay him for use of land and labor to grow, dig and pack such a tree. It is too large to handle properly and plant in the orchard, and the shock is too great for such a large tree to be removed after growing four years in a crowded nursery row. The chances are all against the tree being of desirable shape, and there is but little chance for the planter to get it into the desired shape of the modern orchard tree. The very best tree to plant in the orchard is a good one year tree. Such a tree should be from three to five feet high, according to variety, some varieties making much more growth than others in the same soil. The roots of this one year tree are ready to take right hold of the soil and commence to grow. The top of this one year tree is easily formed to any desired height and shape that suit the owner and is to be preferred to any other size or age of tree. Set side by side, it will bear a crop of fruit before the older and larger tree.

Stomach Misery for Over Six Years

Read what Mr. Hoffman, landlord of the Webster Hotel, writes. "I suffered misery and intense pains from stomach trouble for over six years, and all the doctoring that I did or medicine I used were of no avail until about two years ago, when I used a treatment of Mi-o-na. The first few days' treatment helped me greatly and upon using it a while I was made entirely free from any stomach trouble or complaint whatever. Since the cure by Mi-o-na I have regained my weight, I eat and sleep well, am never nervous, and my entire general health is much better."—Max M. Hoffman, Webster, N. Y., Aug. 2, 1909.

Mi-o-na stomach tablets relieve distress in five minutes. They act like magic. They are guaranteed to cure sour stomach, gas, eructations, heartburn, dizziness, biliousness and nervousness, or money back.
